

QRIDit

Home Watch Edition™

Introducing QRIDit® - the tool of the future for the Home Watch Industry.

Your Home Watch service provider has invested in our software to provide you with a faster and more efficient customer experience. Your dashboard allows easy access to all information related to your account from one convenient location. You can view your most recent reports and information about your property from anywhere with easy access to your archived reports for your own reference or insurance purposes.

QRIDit® Home Watch Edition offers:

- GPS, date & time log to prove your Home Watch provider was at your property
- Customized checklists specific to each property
- Automated email notification when a new report is available
- Your own secure & private client dashboard
- Online reports accessible from anywhere
- Direct communication with your service provider through our chat portal
- Online invoicing so you can easily pay your bill from anywhere

With the help of QRIDit® Home Watch Edition your Home Watch service provider is now able to offer you with the most advanced and effective customer service available today!
